ANSWERS TO QUESTIONS RECEIVED THROUGH 5:00 P.M., AUGUST 13, 2014:

Q#1 After looking at the specs, I have a couple questions regarding the Beet Heet Severe. I was curious if a MSDS is available? I have those products available and ability to blend. Unfortunately, the spec provided does not give any specific content of amount of individual chlorides. This portion of spec is quite vague and I would like the opportunity to discuss.

A#1 Beet Heet is produced by K-Tech Specialty Coatings. The MSDS sheet indicates that the Chemical Name is a Trade Secret and that the Formula is Proprietary.
