**REQUEST FOR LETTERS OF INTEREST (LOIs) FOR
BRIDGE CONSTRUCTION ADMINISTRATION AND INSPECTION SERVICES**

PART I. BACKGROUND INFORMATION

The Ohio Turnpike and Infrastructure Commission (“Commission”), a body corporate and politic constituting an instrumentality of the State of Ohio, is responsible for operating and maintaining the Ohio Turnpike, a toll road officially known as the James W. Shocknessy Ohio Turnpike. The Ohio Turnpike is a limited access highway extending 241 miles across northern Ohio. Additional information regarding the Commission and the Ohio Turnpike can be found at <https://www.ohioturnpike.org/home>.

The Commission issues this Request for Letters of Interest seeking to select a qualified consultant (“Consultant”) to provide bridge construction administration and inspection services, on an assignment basis, as further described in Appendix A, for Project No. 43-24-10, Bridge Replacement, Boardman-Canfield Road (US 224) Bridge over the Ohio Turnpike, Milepost 227.6, Mahoning County, Ohio (the “Project”).

Letters of Interest shall serve to provide information for the Commission to evaluate the Respondent’s qualifications to perform the services required for the Project. The Commission intends to select one consultant to enter into an agreement for the Project based on the LOI submittals. The contract (the form of which is set forth in Appendix B) for the Consultant’s services shall commence on the date that the Chief Engineer issues the first assignment letter and shall continue through the completion of the assignments even if the construction project will not be completed until after December 31, 2025.

Original Construction Plans and Rehabilitation Plans, as well as the Project Plans currently out to bid are available upon request to purchasing@ohioturnpike.org and will be sent by e-mail with a File Transfer Portal (FTP) link.

Those firms interested in responding to the Request for Letters of Interest must have a completed “Request for Qualifications” (“RFQ”) package for calendar years 2023-2024 on file with the Commission to be considered as a potential Respondent. If a firm has not already responded to the RFQ, the RFQ package may be obtained through the inquiry process and its response submitted simultaneously with the LOI.

Any person responding (a “Respondent”) must clearly demonstrate depth of experience in providing bridge construction administration and inspection services, including familiarity with the various methodologies and industry best practices for performing the required tasks. Demonstrated experience in providing the necessary services is required.

PART II. ASSISTANCE FROM COMMISSION PERSONNEL

Commission personnel will be assigned to assist, as needed, with the coordination of the various aspects of any assignments. In determining whether a Respondent is responsive, the Commission will consider the Respondent's experience, conduct and performance on previous contracts (if any) and ability to execute the Contract properly. Factors that may be considered by the Commission are:

- A. Competence to perform the required professional design services as indicated by the technical training, education, and experience of the firm's personnel, especially the technical training, education, and experience of the employees within the firm who would be assigned to perform the services;

PART IX. OFFICE OF EQUITY AND INCLUSION

The Commission reauthorized its Business Inclusion Program in 2023 to ensure that businesses certified as a Small Business Enterprise (SBE) have the fullest possible opportunity to participate in contracts involving the expenditure of Commission funds. The program is administered by the Commission's Office of Equity and Inclusion (OEI), which reviews each proposed contract and determines if opportunities exist and if so, applies a goal to the proposed contract. In some cases, no goal is applied to a proposed contract due to a lack of opportunity and availability of certified businesses.

When a goal is identified in a Request for LOIs, the respondent must submit the documentation provided by the Commission to show how the respondent will meet the goal. When the goal is waived, respondents are strongly encouraged to use "good faith efforts" or necessary and reasonable actions that would reasonably be expected to attain SBE participation in the respondent's performance of the scope of work.

Additionally, whether the Commission applies a goal to a proposed contract or not, the program standards provide that the Commission may apply an evaluation credit of five percent (5%) to the total points awarded for responses received from SBE consultants to perform the personal or professional services set forth in the Scope of Services. The Commission **will** apply this credit in the evaluation process for responses submitted in response to this Request for LOIs.

For questions about the Commission's Business Inclusion Program, please contact the Office of Equity and Inclusion at equity.inclusion@ohioturnpike.org

Respondents should specify in the Proposals whether they take exception to any of the Scope of Services or the Bridge Construction Administration and Inspection Services Contract. If a Respondent fails to notify the Commission of a known error in the Request for LOIs, and a Bridge Construction Administration and Inspection Services Contract is awarded to that Respondent, that Consultant shall not be entitled to additional compensation or time by reason of the error or its later correction.

The Commission reserves the right to make changes to the scope of this Request for LOIs and to clarify any of the requirements, information and/or provisions of this Request for LOIs as it deems necessary. - 1.2 Assignments.** The Consultant agrees to perform and is engaged under the terms and conditions of this Contract to provide the bridge construction administration and inspection services required for the Project as an assignment and authorized through an Assignment Letter from the Chief Engineer as further provided in Section 1.5 below.
- 1.3 Non-Exclusivity.** The Consultant is not the Commission’s exclusive provider of bridge construction administration and inspection services. All assignments issued to Consultant for the Project are subject to the terms and conditions of this Contract.
- 1.4 Designated Personnel.** Prior to performing any services on a given assignment, the Consultant shall provide to the Commission for approval a list of personnel designated to perform the services along with their resumes and certifications as required. Only those designated personnel may perform those services unless Consultant obtains the Commission’s approval of any substitutions or additions in advance of any change.
- 1.5 Assignment Letter.** Where the Commission has approved the list of designated personnel, the Chief Engineer will issue an Assignment Letter prior to the commencement of any services and the Assignment Letter shall incorporate the specific scope of services and the approved fee proposal for the assignment. The Consultant agrees that any Assignment Letter issued by the Commission to the Consultant under this Contract is subject to and governed by the Contract Documents, and the provisions of the Contract Documents are incorporated into such Assignment Letter unless expressly provided otherwise.
- 1.6 Specifications.**

 - 1.6.1** Unless otherwise instructed in writing, any inspection, test or sampling to be performed by the Consultant, shall be in accordance with the Contract Documents of the Commission’s Public Improvement Contract, as well as the Specifications for the inspection or testing as most recently published by the American Society for Testing Materials (“ASTM”), the American Association of State Highway and Transportation Officials (“AASHTO”), or the current edition of the State of Ohio Department of Transportation (“ODOT”) manual entitled, Construction and Material Specifications, whichever is applicable, unless other standards and

APPENDIX B

requirements are applicable, in which case the current publications containing such standards or specifications shall be followed.

- 1.6.2.** If assigned to perform inspection services, the Consultant shall inspect the work of each contractor for Defective Work in accordance with the duties and responsibilities described in the Contract Documents of the Commission's Public Improvement Contract, which is incorporated by reference into any assignment issued to the Consultant for inspection services. If, through inspection or otherwise, the Consultant shall become aware of any Defective Work on the Project, the Consultant shall report all Defective Work to the Commission, together with recommendations for the correction thereof. Upon completion of any inspection services assigned to the Consultant, it shall provide certification, in writing, to the Commission that the inspections were completed in strict accordance with the specifications set forth in the Contract Documents for that particular project. Such certification shall be on behalf of both the Consultant as an entity and the individual inspector assigned to perform the inspection services.

ARTICLE 2 TERM, CONTRACT FEES AND PAYMENT

- 2.1 Term.** This Contract shall have a term commencing on the date that the Chief Engineer issues the first Assignment Letter and ending on December 31, 2025, except that Consultant shall perform all necessary services for any projects assigned during the Contract term if the agreed upon completion date occurs after December 31, 2025.
- 2.2 Contract Fee.** The Commission shall pay the Consultant for the proper performance of the bridge construction administration and inspection services under all assignments in accordance with the Assignment Letters issued by the Chief Engineer. The total amount payable to Consultant under this Contract shall not exceed \$1,350,000.00 ("Contract Fee"), including reimbursable expenses, for all task order assignments issued during the course of the term. The Commission may amend the Contract in writing, prior to the performance of any modified or additional work, in order to incorporate additional Fee Proposals as sought by the Commission. Unexpended funds allocated for an assignment may be reallocated to a subsequently issued assignment if the prior assignment is modified in writing signed by both parties reducing the total amount of that prior assignment.
- 2.3 Billing Rates.** Unless a lump sum arrangement is previously agreed upon as covering all work required for a particular assignment, the Commission shall compensate the Consultant based upon the actual effort expended performing the necessary services and Approved Billing Rates derived from actual wage rates, overhead rate and fixed fee using the following formula:

Billing Rate = [Hourly Rate + (Hourly Rate)(Approved Overhead Rate)] x 1.10 with the following definitions:

APPENDIX B

- 2.3.1 Hourly Rates.** Hourly Rates shall mean the direct cost of salaries and/or wages of the personnel of the Consultant, as applicable, including professional, technical, management, administrative and clerical employees, and principals engaged on the Project as related to their time devoted to the Project. All hourly rates are subject to the approval of the Commission's Chief Engineer. The Commission also reserves the right to “cap” the hourly billing rates for any individual assigned to a project in accordance with the document entitled Ohio Turnpike and Infrastructure Commission Professional Services Method of Compensation – Hourly Billing Current FY Summary. This document will be updated annually.
- 2.3.2 Approved Overhead Rate.** The Consultant’s overhead rate shall be reviewed by the Commission in accordance with the ODOT Specifications for Consulting Services. The Consultant must provide the Commission with an updated ODOT Consultant Indirect Cost Rate Approval Certificate on an annual basis. The overhead rate for this Contract shall be approved by the Chief Engineer but shall not exceed 160.00%. The rate may only be amended by mutual agreement of the parties in writing.
- 2.3.3 Fee.** The Consultant shall be entitled to receive a profit as a part of the Approved Billing Rate described in Subsection 2.3.4 below attributable to the approved personnel on the Project. The profit allowance shall be ten percent (10%), and thus the profit multiplier for any given assignment will be 1.10.
- 2.3.4 Billing Rate Approval.** The Consultant, prior to beginning work on the Project, must submit and obtain written approval from the Commission of the Billing Rate for each individual it expects to work on the Project, including their job classification. Prior to assignment of any new personnel to the Project, the proposed Billing Rates and résumés must be submitted for prior written approval by the Commission. Overtime rates will only be paid as approved by the Commission. The Commission reserves the right to cap billing rates for any personnel assigned to the Project. The Consultant shall invoice its personnel expenses based on its Approved Billing Rates. Compensation for any services not specifically provided for shall be determined by prior agreement between the Executive Director or the Chief Engineer of the Commission and the Consultant; otherwise the Commission agrees to compensate the Consultant in accordance with rates submitted. The schedule of rates include all overhead costs except as hereinafter modified. Overtime must have prior approval of the Executive Director or the Chief Engineer of the Commission. Overtime rates will only be in effect after 40 (forty) hours of regular time is worked unless this provision is in conflict with other labor agreements to which the Consultant is a party. The time period for the assessment of regular time shall be from Monday through Friday of a standard work week, and for purposes of overtime, said personnel must have worked on the assigned Turnpike project or at another Ohio Turnpike location on another Commission project. Time in excess of forty (40) hours for this period as well as Saturday and Sunday will be considered as overtime.

APPENDIX B

- 2.4 Reimbursable Expenses.** No extra charges will be assessed for preparation of invoices, computer time, travel time to and from the job site, or for incidental material, services or equipment, except as hereinafter provided. The Commission agrees to pay the actual costs of telephone, printing, postage and other similar incidental expenses incurred by the Consultant in connection with any services performed pursuant to this Contract when such expenses are fully documented. In the event that specialized materials or equipment is required, they shall be provided by the Consultant at the expense of the Commission provided that the Chief Engineer has given prior approval to such expenditure.
- 2.4.1 Vehicles.** The Commission also agrees to reimburse the Consultant for the use of Consultant's vehicles (or vehicles of Consultant's employees) on the Project at the current flat daily rate set forth in the Commission's Professional Services Method of Compensation. In order to be reimbursed, Consultant must provide documentation to substantiate the days on which travel using Consultant's vehicles or vehicles of Consultant's employees occurred for services performed under this Contract.
- 2.4.2 Toll Free Access.** The Consultant and its employees shall have toll-free passage on the Ohio Turnpike in performing work pursuant to this Contract. However, such toll-free passage shall be strictly prohibited for any personal use by the Consultant's employees. Non-Revenue transponders will be issued to the Consultant upon the submittal of a written request for the requested number of transponders. These transponders are for assigned project use only and it shall be the responsibility of the Consultant to manage and monitor the proper usage of these transponders. The Commission will audit these transponders on a regular basis and should unauthorized activity be detected, the authorization for non-revenue privilege may be revoked. These transponders shall be returned at the completion of the assignment. Should the Consultant return less than the number of transponders issued, there shall be a charge of \$100.00 per transponder for each one not returned.
- 2.4.3 Meals and Lodging.** During performance of said professional services, overnight lodging will be provided for Consultant's employees only when it is deemed advantageous to the assignment, and prior approval in writing is granted by the Commission's Executive Director or Chief Engineer. In the event said overnight lodging has been approved by the Executive Director or the Chief Engineer, the cost of meals and lodging shall be reimbursed at the Federal CONUS (Continental United States) per diem rates established by the Federal Government and published at <https://www.gsa.gov/travel/plan-book/per-diem-rates>. Consultant must provide documentation to verify the travel for which reimbursements are being requested. Travel reimbursement is based on the location of the work activities and not the accommodations. The location of the work activities shall be the city/county where a majority of the work is being performed for the Project.
- 2.5 Reporting.** The Consultant shall provide, and shall require all sub-consultants to provide, any requested data to determine compliance with the representations made in the approved SBE Participation Certification, Utilization Plan, Demonstration of Good Faith Efforts and

APPENDIX B

Statements of Intent to Contract and Perform for each invoice through the Commission's online diversity compliance portal: <https://ohioturnpike.diversitycompliance.com/Default.asp>. The Consultant and all sub-consultants shall timely submit all required data prior to any reasonable due dates, and to check the online diversity compliance portal on a regular basis to manage contact information and contract records. The Consultant shall require all sub-consultants to have completed all requested items and maintain contact information on record that is accurate and up to date. The Consultant shall include these disclosure and reporting requirements in all subcontracts under the Contract and further require that all subcontractors place the same obligation in each of their lower tier contracts. The Commission may require additional information related to compliance at any time before, during, or after contract award.

- 2.6 Taxes.** The Commission is a tax-exempt entity and will provide the Consultant a copy of the Commission's tax exemption certificate.
- 2.7 Invoices and Payment.** The Consultant shall submit invoices no more frequently than once a month in a form agreeable to the Commission. The Consultant shall render its invoices to the Commission on or about the 10th day of the month after any such services are performed. Undisputed invoices shall be due and payable by the Commission within thirty (30) days from the date of receipt thereof. Invoices for any other amounts will be submitted to the Commission as the amounts come due. For any services performed on a time and materials basis, the invoice will also state the total number of hours worked by each individual performing services during the preceding month. Invoices shall be accompanied by such supporting documentation as required by the Commission. The Commission may withhold payment for services that have not been properly performed or completed, and shall not be responsible for cost overruns incurred by the Consultant due to errors and omissions by the Consultant made during the performance of its services on any Turnpike project.
- 2.8 Audit.** The Consultant shall keep full and detailed records and accounts related to its rates, fee and reimbursable expenses and exercise such controls as may be necessary for proper financial management and to substantiate all costs incurred by implementing the accounting and control systems generally followed by consultants in the area or projects similar in nature. The accounting and control systems shall be satisfactory to the Commission. The Commission and the Commission's auditors shall, during regular business hours and upon reasonable notice, be afforded access to, and shall be permitted to audit and copy, the Consultant's records and accounts, including complete documentation supporting accounting entries, books, correspondence, instructions, drawings, receipts, subcontracts, Subcontractor's proposals, purchase orders, vouchers, memoranda and other data relating to this Contract. The Consultant shall preserve these records for a period of three years after final payment, or for such longer period as may be required by law.

APPENDIX B

ARTICLE 3 TIME FOR COMPLETION

- 3.1 Time for Completion.** Time is the essence of this Contract. The Assignment Letter will provide the date upon which Consultant is to complete its work unless the Chief Engineer grants a request for an extension from the Consultant. Such extension request must be made in writing to the Chief Engineer no later than seven (7) days following the date upon which any event occurs that gives rise to the need for additional time. The extension request must include a description of the event, the reasons why that event justifies an extension, the duration of the extension sought, and any other documentation requested by the Chief Engineer.
- 3.2 Authorization to Proceed.** The Assignment Letter will provide the date upon which Consultant is to proceed with the work. Otherwise, Consultant is to proceed upon written authorization from the Chief Engineer.

ARTICLE 4 THIRD PARTIES

- 4.1 Assignment.** Consultant may not assign, transfer, convey or otherwise transfer or dispose of its rights, title, interest in, or its duty to perform or supervise the performance of any of its obligations hereunder, to any other person, company, corporation or entity without the prior written approval of the Commission. Any purported assignment in violation of the preceding sentence will be void. Any approved assignment shall not relieve the Consultant from any of its responsibilities under the Contract or imply a willingness on the part of the Commission to give any subsequent or other consent, nor stop the Commission from refusing same; nor shall any such consent confer upon any assignee or transferee any right to assign or transfer any rights conferred upon such transferee.
- 4.2 Subcontracting.** The Consultant shall not sublet or subcontract, nor shall any approved sub-consultant commence performance of, any part of the work or services included in this Contract without the previous written approval of the Commission. Subcontracting, if permitted, shall not relieve the Consultant of any of its obligations under this Contract. The Consultant shall be and remain solely responsible to the Commission for the acts or faults of any sub-consultant and of such sub-consultant's officers, agents and employees, each of whom shall for this purpose, be considered an agent or employee of the Consultant to the extent of its subcontract. The Consultant shall file a conformed copy of the applicable subcontract with the Commission. The Consultant and any sub-consultant shall jointly and severally agree that the Commission is not obligated to pay or to be liable for the payment of any sums due any sub-consultant. References to the Consultant in this Contract include authorized sub-consultants of the Consultant.
- 4.3 Waiver of Defense.** The Consultant acknowledges and agrees it will not raise a third-party liability defense, and waives such defense, as to any claim, suit or action brought against the Consultant or Commission arising from Consultant's performance under the Contract,

APPENDIX B

except where the claim, suit or action is based upon facts that occurred after an assignment or transfer of the entire Contract, which was consented to by the Commission in writing as required by Section 4.1 above.

- 4.4 Beneficiaries.** There are no intended third-party beneficiaries of any provision of this Contract.
- 4.5 Independent Contractor.** The Consultant is an independent contractor for all purposes under this Contract. This is not an agreement of partnership or employment of the Consultant or any of the Consultant's employees by the Commission for the purpose of the Public Employees Retirement System ("PERS"), Workers' Compensation, or for any other purpose. The Consultant shall not pledge or attempt to pledge the credit of Commission or in any other way attempt to act on the Commission's behalf in an effort to bind the Commission to any additional agreements. The Consultant agrees to indemnify the Commission for any and all sums that are due and owing to the Internal Revenue Service (IRS) for withholding FICA and unemployment or other state and federal taxes. The Consultant further agrees to make such payments to the IRS and appropriate state authorities for withholding FICA and unemployment taxes.
- 4.6 Representations and Warranties.** The Consultant represents and warrants that: (1) so far as the Consultant knows, no member, employee, or agent of the Commission has any interest, either direct or indirect, in the Contract; (2) the Consultant has not employed or procured the employment of anyone to solicit or secure the Contract with the Commission other than those disclosed in the Proposal; and (3) the Consultant will fulfill the representations in its Small Business Utilization Certification and Plan submitted with its Letter of Interest, which the Commission relied upon in selecting the Consultant for contract award; and (4) all materials, including their use by the Commission in unaltered form, will not infringe any third party copyrights, patents or trade secrets that exist as of the date of this Contract and that arise or are enforceable under the laws of the United States of America. If the Commission shall hereafter determine that any of the foregoing representations is false, it may, upon written notice to the Consultant, immediately terminate the Contract and thereafter refuse to make payments thereunder, whether or not such payments are for Services already performed, and may also recover its damages, if any, for breach of warranty; or in the event such false representation was as to the existence of any agreement providing for a bonus, fee, commission, percentage, or other form of contingent compensation, the Commission may, in its discretion, elect to continue the Contract in force by deducting from the payments to be made thereunder to the Consultant the amount of such bonus, fee, commission, percentage, or other contingent payment.

ARTICLE 5 INDEMNIFICATION

- 5.2 Application.** Nothing herein contained shall require the Consultant to reimburse the Commission for acts or omissions caused by the sole negligence of the Commission. The Consultant shall waive and shall not assert any claim against the Commission for any injury to persons, whether or not resulting in death, or any loss or damage to property occurring from any cause unless such injury, loss or damage is due solely to the negligence of the Commission, its agents or employees.
- 5.2.1** If a regulatory body or court of competent jurisdiction finds that the Consultant is not an independent contractor or is not in compliance with applicable laws related to work as an independent contractor, based on the Consultant's own actions, the Consultant will assume full responsibility and liability for all taxes, assessments, and penalties imposed against the Consultant or the Commission resulting from that contrary interpretation, including taxes, assessments, and penalties that would have been deducted from the Consultant's earnings if the Consultant had been on the Commission's payroll and employed as a Commission employee.
 - 5.2.2** If a third-party claim causes the Commission's quiet enjoyment or use of any product supplied by the Consultant to be seriously endangered or disrupted, or, should a court order be issued against the Commission restricting its use of any product and should the Consultant determine not to further appeal the claim issue, at the Commission's sole option, the Consultant shall provide at its sole expense, the following: Purchase for the Commission the rights to continue using the contested product(s); or Provide substitute products to the Commission which are, in the Commission's sole opinion, of equal or greater quality, or Refund all monies paid to the Consultant for the product(s) subject to the court action. Column 1 Name of SBE (See instructions)	Column 2 Project Role (See instructions)	Column 3 Description of Work (See instructions)	Column 4 Amount Subcontracted to SBE (See instructions)	Column 5 Amount to be Applied Towards Goal (See instructions)

Small Business Enterprise Contract Goal in Dollars:

Box 2

Total SBE Credit Commitment

Box 3

**If Box 2 is greater than Box 3, proceed to complete and submit the Good Faith Efforts Documentation Form (pages 4 to 5)

Instructions for Small Business Enterprise Utilization Plan

Box 1: Name of Respondent/Bidder submitting Proposal/Bid.

Column 1: Name of the Small Business Enterprise (“SBE”) participating on the project. To receive credit towards the contract goal, SBEs must be certified with the Commission at the time the Proposal/Bid is submitted. Businesses that are certified as SBEs or DBEs with ODOT or EDGE certified with the Ohio Department of Development may submit a Fast-Track Application with the Commission but must still be certified as a SBE with the Commission at the time the Proposal/Bid is submitted. If a SBE is performing multiple scopes, repeat the name of the SBE for each scope that will be performed and the respective amount.

Column 2: The Project Role that the SBE will be performing as follows:

- Prime Contractor
- Subconsultant
- Subcontractor
- Manufacturer or Regular Dealer
- Broker
- Trucking/Hauler

List each project role to be performed by a single SBE individually on a separate row(s). The role is used to determine what portion of the amount to be subcontracted (Column 4) may be applied toward meeting the goal (Column 5).

Column 3: A description of the work to be performed by the SBE must be consistent with the industry used for its certification. The Respondent/Bidder may rely upon the descriptors listed in the Commission’s Certification List.

For example: <https://www.ohioturnpike.org/business/oei>, or those eligible for Fast Track certification as a DBE see: <https://www.transportation.ohio.gov/working/data-tools/resources/dbedirectory>, as a SBE see: <https://www.transportation.ohio.gov/programs/business-economic-opportunity/sbe/sbe-directory>.

A Respondent/Bidder subletting a portion of a bid item or task shall state “Partial” and describe the Work that is included (e.g., “Surveying (Partial) – Site Plan”, “Electrical (Partial) – Trenching”).

Column 4: List the total amount to be subcontracted to each SBE for the services they are performing.

Column 5: This is the total dollar amount of the project each line listed in the certification that the prime intends to apply towards meeting the Contract goal. It may be that only a portion of the amount subcontracted to a SBE in Column 4 is eligible to be credited toward meeting the goal. See Notes below. The Commission will utilize the sum of this column (Box 3) to determine whether or not the respondent has met the goal. In the event of an arithmetic error in summing column 5 or an error in making appropriate reductions in the amounts in Column 4, then the sum will be corrected, and the total (Box3) will be revised accordingly.

Notes: (A) For Work self-performed by a SBE bidding as a prime contractor, the Respondent/Bidder may claim 100% of the amount self-performed (Column 4) towards meeting the goal (Column 5). (B) For Work performed by SBE subcontractors, the Respondent/Bidder may claim 100% of the Commercially Useful Functions performed by subcontractors (i.e., the subcontractor must perform or exercises responsibility for at least 30% of the total cost of its subcontract using its own workforce, and have responsibility, for negotiating prices to purchase its materials and supplies, determining quality and quantity, ordering the material, and installing and paying for the material itself). (C) For materials supplied by a Manufacturer or a Regular Dealer, the Respondent/Bidder may claim 100% of the cost of the materials or supplies (Column 4) towards meeting the goal (Column 5). (D) SBE credited for the total value of the trucking services provided using its own trucks and employees and the total value of transportation services SBE provides using non-SBE trucks that do not to exceed the value provided by SBE-owned trucks operated by its employees (i.e., no more than one non-SBE truck foreach SBE truck). (E) For work contracted out to a broker, the Respondent/Bidder may only claim the fees paid to a broker towards meeting the goal (Column 4).

Box 2: Box 2 is the Contract goal for SBE participation goal appearing on the Solicitation.

Box 3: Box 3 is the sum of the values in Column 5. This value must equal or exceed the Contract goal amount written in Box 2, or Good Faith Effort Demonstration is required if insufficient SBE Participation has been achieved. See the following pages (page OEI-4 and page OEI-5) for the materials necessary for demonstrating the Respondent’s/Bidder’s Good Faith Efforts.

GUIDANCE FOR DEMONSTRATING GOOD FAITH EFFORTS TO ACHIEVE OR EXCEED THE CONTRACT GOAL

If the SBE Participation Certification and Utilization Plan fails to document commitment to achieving the SBE Goal set forth in the notice to Respondents/Bidders, complete the Good Faith Effort Demonstration Form to document necessary and reasonable actions that, by their scope, intensity, and appropriateness, would reasonably be expected to attain SBE participation that meets or exceeds the goal.

The Commission's determination of Good Faith Efforts is based on consideration of the quality, quantity, and intensity of the different kinds of actions taken. The activities or efforts undertaken to when making a Good Faith Effort must be those that one could reasonably expect to deploy when seriously, actively and aggressively attempting to obtain SBE participation in relative proportion to those that are Available to capably perform Commercially Useful Functions under the Opportunities presented in given contract.

The analysis for determining whether the Respondent/Bidder fulfilled its obligation to use Good Faith Efforts, the Commission will consider the demonstration of the following, which the form is intended to illicit from the Respondent/Bidder:

1. **“Opportunities”** means the subcomponents of the project that are identifiable as economically viable scopes of work that may interest subcontractors in responding to the respondent's solicitations to participate in the Project. The unique opportunities each project presents is determined based on the nature of the project using in-house expertise and the aggregation of those that the Respondents/Bidders may identify in their proposals or bids.
2. **“Availability”** means the degree of ready, willing and able SBEs available to capitalize on the opportunities presented under each project. The availability consideration examines the amount of SBEs in the relevant marketplace using (1) the Commission's list of certified SBEs (available at <https://www.ohioturnpike.org/business/oei>); (2) the Unified Certification Program's DBE Directory (at <https://www.transportation.ohio.gov/working/data-tools/resources/dbedirectory>); (3) the Ohio Department of Development's directory of EDGE certified businesses: <https://development.ohio.gov/business/minority-business/certifications/encouraging-diversity-growth-and-equity-program>; the Ohio Department of Transportation's registry of SBEs: <https://www.transportation.ohio.gov/programs/business-economic-opportunity/sbe/sbe-directory>; and (5) any other Ohio-centric database that the Commission recognizes as using standards that are substantially similar to the requirements for certification with the Commission.
3. **“Efforts”** means the documented attempt to meaningfully and earnestly solicit the interest of available SBEs to fulfill the opportunities presented to perform on the Project, including making a sufficient number of contacts to follow up with any available but non-responsive SBEs and negotiating in good faith with available SBEs to reach reasonably agreeable terms for their participation.
4. **“Commitments”** means the Respondent's or Bidder's representations in the Participation Certification and Utilization Plan to have successfully achieved commitment(s) to utilize verified SBEs to perform on the project.

The determination that a given Respondent/Bidder satisfactorily used and demonstrated its Good Faith Efforts is based on the holistic review of the Opportunities, Availability, Effort and Commitment documented in the bid or proposal documents.

A. Opportunities and Availability

This assessment of opportunities and availability compiles those SBEs that the Respondent /Bidder may identify in their Utilization Plan and Good Faith Efforts Demonstration forms, but also may go outside the form to identify additional possible opportunities under the project and recognized certification registries for possible untapped available firms.

A Respondent/Bidder can demonstrate fulfilling the **Opportunity** component is documenting that the Respondent/Bidder performed actions that include the following:

- a. Selected and packaged portions of the work in order to increase the likelihood that the SBEs will respond to solicitations expressing interest in participating on the project. This includes, where appropriate, breaking out contract work into economically feasible units to facilitate participation through subcontracting.
- b. Soliciting the interest of all SBE entities available to perform on the project through reasonable, meaningful and available means and providing a reasonable and meaningful time to respond.

The means for a Respondent/Bidder to fulfill the **Availability** component of demonstrating good faith efforts includes the following:

- a. Searching recognized registries identifying certified SBEs that potentially could fulfill the opportunities under the project.
- b. Identifying other possible ready, willing and able SBEs through the effective use of the services of available from plan rooms, community organizations, contractors' groups, local, state, and Federal minority/women business assistance offices, and other organizations as allowed on a case-by-case basis to provide assistance in the recruitment and utilization of SBE entities.

B. Efforts and Commitment

Respondents/Bidders must document level of exertion used to engage the Availability pool on the Opportunities presented under the project. The **Efforts** component considers the active attempts to successfully reach terms with interested SBE firms, which may include the following:

- a. Negotiating in good faith with interested SBE entities so as to facilitate their participation on the Project.
- b. Not rejecting SBE entities without sound reasons based on a thorough investigation of their capabilities.
- c. Assisting SBE entities in obtaining bonding, lines of credit, or insurance as required.

The **Commitment** component provides a cross-check on the identified and documented Opportunities, Availability and Efforts. Unless the analyses under the Opportunities, Availability and Efforts prongs demonstrate otherwise, the utilization of Good Faith Efforts is expected to result in the Respondent/Bidder successfully representing its achievement of SBE participation goal for the contract. The Respondent/Bidder must provide justification for any lack of Commitment by showing that the failure occurred despite its Good Faith Efforts through the demonstration under the Opportunity, Availability and Efforts prongs of the test.
